

# Finding value in an uncertain world

9 April 2017

In the same way that market sentiment in 2016 was dominated by Brexit and the US presidential election, many anticipate the rollercoaster ride may continue in 2017.

## **Uncertainty provides opportunity**

With almost seven years of quantitative easing coming to an end, a lack of underlying growth has resulted in equity markets around the world now asking – so what happens next?

No-one has a crystal ball, but our experience tells us that uncertainty always creates investment opportunities – for those who know where to look.

## **The key is experience**

In such uncertain times, experience and a proven investment approach can make the difference – it helps cut through the market noise and invest in high quality companies, in Australia and overseas, that are trading at attractive valuations.

The Perpetual Equity Investment Company Limited (ASX:PIC) is managed by Perpetual Investments, one of Australia’s most highly regarded and awarded investment managers. Perpetual Investments has built their successes off a disciplined investment process that has been tested and proven for more than 50 years. Investments are based on fundamental research and analysis of quality, value and risk. The aim is to choose the best quality investments at prices that represent good value, based on their potential risk and return. Bringing the process to life is one of the most experienced and highly regarded investment teams in Australia.

This investment approach and experience ensures the focus remains on the selection of quality stocks, which tend to outperform amid increased volatility and market noise.

### Why invest?

The Perpetual Equity Investment Company (PIC) provides immediate exposure to a concentrated and actively managed portfolio of quality Australian shares and global listed securities – all in one simple trade.

Furthermore PIC gives you access to a portfolio that:

- is **actively managed** using a **proven investment approach**
- has the **flexibility** to move between Australian shares, global listed securities and cash to **enhance returns** and **manage risk**
- offers the **potential for consistent income** through careful management of dividends and franking credits
- provides **transparency** through ongoing performance updates and regular investor briefings.

PIC may be suitable if you’re an individual investor looking to reinvest dividends for long-term capital growth, or an SMSF trustee seeking regular income and capital growth in retirement.
